PROFESSIONAL SUMMARY

Senior Software Engineer with 5+ years of experience leading the development of high-performance web and mobile applications. Proficient in JavaScript, React, and TypeScript, my expertise spans the full stack, from frontend technologies like React Native and SolidJS to backend services in Go and Node.js.

I excel at building complex features like interactive dashboards and real-time chat systems. I am also adept at mentoring teams and managing the full app store deployment process. As a highly motivated problem-solver accustomed to fast-paced environments, I am always ready for a new challenge.

SKILLS

- React Js
- Next Js
- TypeScript
- Javascript
- React Native
- NodeJs
- Go
- HTML
- CSS
- Git
- AWS
- Docker

WORK HISTORY

Apr 2024 - Present
Frontend Engineer
Bird

As a Frontend Engineer at Bird, I work closely with designers to deliver user-friendly and accessible interfaces. I have also expanded my expertise to backend development using Go (Golang).

- As part of the sales development team, I delivered features such as lead, opportunity, and account management.
- Developed a custom dashboard system where the user can select whatever metrics they need and build their own charts, used across the entire application.
- Developed a dashboard feature that includes charts, tables, and KPIs used across all applications, built with Malloy, SolidJS, and Vega charts.
- Developed interactive charts, tables, and analytics dashboards using libraries such as TanStack Table, Recharts, Chart.js, and Radix UI.

- Led the redesign of the marketing cloud, collaborating with the design team to create intuitive and visually appealing interfaces with Radix UI and Tailwind CSS.
- Implemented comprehensive testing strategies for new features using Vitest, React Testing Library, and Cypress to ensure reliability and maintainability.
- Maintained existing API endpoints, introduced new features, and resolved bugs to improve system performance and stability.

Jan 2022 - Mar 2024
Senior Software Engineer
MULTTI - Tecnologia e
Integrações

As a Senior Software Engineer at Multi, I took on a leadership role, guiding my teammates and ensuring smooth development processes. I also got hands-on with backend development using PHP.

- Built a chat system with WebSockets and a virtualized list for a smooth user experience, using React, React States, PusherJS, and Sass.
- Developed a streaming platform tailored to the Brazilian financial market, leveraging React, React States, Sass, cookies, and Reactstrap.
- Created a mobile app for tracking deliveries, integrating push notifications, maps, and custom styles using React Native.
- Created a lead management system to handle the entire lead process for a client, from the first contact to sale conversion, using React, Mui, and Sass.
- Streamlined deployment processes with Docker, AWS, and Bitbucket Pipelines to make releases faster and more reliable.
- Responsible for the deployment process in both Google and Apple stores.

Jan 2020 - Jan 2022
Software Engineer
Solution4apps

As a Software Engineer at Solution4Apps, I played a key role in leading and guiding both mobile and web development. I was at the forefront of all projects, shaping the development flow from start to finish.

- Built a mobile app that lets users locate establishments on a map and access their cameras in real-time, using React Native, Push Notifications, Maps, and NativeWind.
- Developed a high-performance, accessible website for a government entity using Next.js and Tailwind.

- Created an interactive financial market platform featuring smooth animations and real-time updates, leveraging Next.js, Chakra UI, Socket.io, React Spring, Tailwind, and React.
- Responsible for the deployment process in both Google and Apple stores.

EDUCATION

Expected in Jun 2028

Bachelor's degree: Information Systems

Universidade Vila Velha - UVV

Aug 2021

Specialization: NextJS, ReactJS, React Native, Typescript

Rocketseat

Aug 2021

Specialization: React Native, ReactJs

Fábrica de aplicativos

Feb 2020

Specialization: HTML + CSS

UpInside Treinamentos

Dec 2016

High School Diploma

Faculdade Projeção

CERTIFICATIONS

Docker course - Full Cycle, 088ac69a-c05f-4aa4-bad8-1c3af72085f2
